

The ROHO® HEAL PAD® Cushion
by ROHO, Inc.

The ROHO HEAL PAD provides an adjustable, therapeutic, counterpressure environment which aids in the healing of heel and elbow ischemic ulcers. The unique design, which offers an array of inflatable, multiple height mini air cells, distributes weight and pressures across the contact surface of the patients problem area helping to maintain blood flow to the wound sight, controlling edema, and facilitating the healing of damaged tissues.

The ROHO HEAL PAD is made with three cell heights and when applied, encompasses the heel and elbow area in a cushion of adjustable mini air cells. The HEAL PAD by ROHO, Inc. can be used as a single patient application or on multiple patients. The ROHO HEAL PAD, a proven therapeutic device for all ages and sizes.
